

Valet Service Provider Checklist

Several aspects go into determining cost associated with all of our services.

If you are comparing prices between valet service providers, we suggest you ask questions about pricing and the types of insurances the company has. You should ensure you are speaking with a capable and properly covered valet service provider.

We recommend that you ask any valet service provider the following questions:

1. Is this company qualified and properly insured?
2. Ask for recent event references. If they provided a quality service they will give you this. Also, ask for a list of contracts they currently have.
3. Insurance Coverage Needed:
 - Garage Liability: Is it a minimum of \$1,000,000.00
 - Garage Keeper's: Is it more than \$200,000.00?
 - Automobile Liability: Is it a minimum of \$1,000,000.00?
 - Worker's Compensation: Is it the AR state minimum of \$500,000.00?
4. Will they provide an on-site evaluation or did they quickly quote you a price?
